

Maks Mogilski

Full stack developer

About Me

I am a product-oriented developer with nearly 2 years of commercial experience and a total of 5 years in programming.

Experience

AiConsole 12.2024 - Currently
Software developer

Specializing in AI automation, I design and develop robust solutions utilizing Python, React, and TypeScript. I work on cutting-edge projects, creating scalable AI-driven systems that enhance operational efficiency and drive innovation

Blazity 09.2023 - 09.2024
Junior software developer

Specializing in headless migrations and Next.js, I build blazing fast websites with top Core Web Vitals for enterprises with over 1000 employees. Experienced in open-source and internal tools, I work independently and closely with clients to deliver high-performance web applications.

Freely Digital 06.2023 - 07.2023
Full Stack Developer Intern

Successfully contributed to the website rebranding project during my internship, leveraging Express.js and Next.js to enhance performance.

Apps Garden 03.2023 - 05.2023
Junior frontend developer

As a Frontend Developer, I built large CMS systems with React and Angular, collaborating with a team under tight schedules and high pressure.

Projects

Flipit AI Mobile - Developed an AI-powered reselling app in React Native that scans products, predicts profitability, and provides resale value estimates
